AGU

AMERICAN GEOPHYSICAL UNION

2100 PENNSYLVANIA AVENUE, N.W.

WASHINGTON, D. C. 20037

Geodesy • Seismology • Meteorology • Geomagnetism and Paleomagnetism • Oceanography • Volcanology, Geochemistry and Petrology • Hydrology • Tectonophysics
Planetology • Solar-Planetary Relationships

Membership in AGU offers:

- Participation in meetings
- Leading publications
- Valuable associations
- Recognition through active participation

It is your scientific society. Support it.

AGU encourages the development of the many specialties of geophysics and offers an extensive program of publications and meetings. At the same time, the Union is deeply involved in discovering and developing the many interrelationships that occur among the fields of study. AGU brings scientists together in order that they may discover and develop areas of relationship. If you are interested or active in any of these diverse fields, you will profit from membership in AGU.

All new applicants are required to use this form; each item should be completed or the words "not applicable" or "none" inserted; incomplete application may be returned to the applicant causing delay and inconvenience. PLEASE TYPE OR PRINT.

Annual dues are \$20 (Student members \$13); a single lifetime payment of \$300 may be made.

AGU Membership

Members in all categories are elected by the Council based on applications stating their qualifications and interest in geophysics. The categories of membership and the minimum requirements are:

Members—Persons actively engaged in geophysical research or its applications. Progressive experience of three years or more beyond a baccalaureate degree or its equivalent is usually required.

Associates—Persons whose interest in geophysics warrants their election, including the less experienced person who does not yet qualify for the grade of Member.

Student Members—College and university students engaged in at least a half-time program of study leading to a degree in science or engineering.

Supporting Members—Corporations, other organizations, and individuals interested in geophysics and desirous of supporting the work of the Union. There are four categories of supporting membership. A special brochure is available.

All members in good standing receive *E&S* and one other AGU periodical (except *Radio Science*). For this purpose, each section of *JGR* is considered one periodical. Added periodicals are available at nominal rates, and members receive 20% discount on books and translation journals ordered for their own use.

10. EDUCATION

Name and Address of School	Dates Attended	Major	Degree and Year Conferred
----------------------------	----------------	-------	---------------------------

11. EXPERIENCE (List beginning with present position)

From	To	Name and Address of Organization	Dates	Titles, duties, nature of work
------	----	----------------------------------	-------	--------------------------------

Applicants desiring Student Membership only may omit questions 12, 13, and 14 but must have 15 completed.

12. References: Please list names and addresses of two or three references; include if possible members of AGU, or other technological or professional colleagues who know you well.

13. Titles of technical contributions or publications, particularly those in the geophysical sciences, and where published.

14. Brief statement of any special interests or qualifications in the geophysical sciences.

15. (STUDENT MEMBERS ONLY) The applicant is known to me and is a student majoring in _____ Subject
at _____ Name of College or University _____ expected to graduate in _____ Year with the degree of _____

He is ☐ a full-time student, or ☐ a teaching or research assistant enrolled in more than half of a full-time academic program.

Signature of Faculty Sponsor _____

☐ Check here if faculty sponsor is a member of AGU.

Typed or Printed Name of Sponsor _____

☐ Check here if faculty sponsor would be willing to sponsor this applicant for Associate Membership at the termination of his student status.
